### COURSE OVERVIEW

This symposium is an opportunity to learn how vasculitis research is improving the care of patients. Participants will have an opportunity to learn about diagnostic options, new treatments and long term outcomes of vasculitis affecting children and young adults. This day will help to strengthen a network of healthcare providers interested in vasculitides.

### COURSE OBJECTIVES

Learners will be able to:

- review the medical and nursing aspects of paediatric/young adult vasculitides
- describe diagnostic options and the use of plasmapheresis in the treatment of vasculitides
- understand the use of data in the follow-up and outcomes of vasculitides
- participate in networking and exchange of information and new ideas

### WHO SHOULD ATTEND
